PROFESSIONAL SUMMARY

Results-driven Full-Stack Software Engineer with 3.8+ years of experience designing and deploying scalable web applications. Proficient in Laravel, CodeIgniter, React.js with deep expertise in RESTful API development, payment gateway integration, and POS system deployment. Recently led end-to-end development of the NSCD Ticket Booking Portal and conducted on-site POS machine setup at NSCD Delhi. Consistent record of delivering enterprise-grade solutions on schedule with measurable performance improvements.

PROFESSIONAL EXPERIENCE

Software Developer | **Softgen Technologies — Lucknow, India** *Apr 2025 – Present*

Stack: Laravel, MySQL, REST APIs, Payment Gateway, POS Systems, AWS

- Architected and deployed a full-featured Ticket Booking Portal for NSCD (National Science Centre Delhi) with real-time seat availability, payment gateway integration, booking confirmation, and admin reporting dashboard.
- Conducted on-site visit to NSCD Delhi to configure and commission POS (Point of Sale) machines for physical ticket counters, ensuring seamless sync with the web portal backend.
- Designed modular RESTful APIs improving system response time by 25% and supporting high-concurrency ticket sales during peak demand.
- Integrated automated email/SMS notifications and reporting modules for NSCD operations, eliminating manual effort and improving booking visibility.

Software Developer | **Troology Pvt. Ltd. — Lucknow, India** *Sep 2023 – Apr 2025*

Stack: Laravel, CodeIgniter, Node.js, Express.js, React.js, MySQL

- Built and maintained enterprise web applications and RESTful APIs serving thousands of daily users across multiple client verticals.
- Automated complex business workflows using Node.js scheduled tasks and Laravel queues, reducing manual effort by 30%.
- Developed dynamic React.js UI components, improving end-user experience and reducing page load times.
- Integrated payment gateways, SMS/email APIs, and third-party analytics services, expanding platform capabilities and enabling automated reporting.

PHP Developer | **Digicoders Technologies Pvt. Ltd. — Lucknow, India** *Aug 2022 – Sep 2023*

Stack: PHP, CodeIgniter, Laravel, MySQL, XAMPP

- Designed and implemented server-side logic using CodeIgniter and Laravel MVC for multiple client projects from scratch.
- Resolved critical system bottlenecks, reducing application downtime by 20% and improving platform stability.
- Modernized legacy PHP UIs by integrating React.js components without full rewrites, improving interactivity significantly.
- Optimized MySQL schemas, queries, and indexing strategies to support growing data volumes efficiently.

KEY ACHIEVEMENTS

- Led end-to-end development & on-site POS deployment for NSCD Ticket Booking Portal at NSCD Delhi headquarters.
- Delivered 10+ enterprise web projects across three organizations with zero critical production failures post-launch.
- Reduced system downtime by 20%, cut manual workflows by 30%, and improved API performance by 25% through targeted optimization.
- Integrated 3+ third-party payment and communication APIs, enabling new revenue streams for enterprise clients.

PROJECTS

National Science Centre Delhi — Booking Portal & POS Setup *(Flagship Project)*

Role: Project Lead & Full Stack Developer | **Tech:** Laravel, MySQL, REST APIs, Payment Gateway, POS Systems

- Architected and deployed full-featured online ticket booking system for a premier Government of India science museum.
- Integrated multiple payment gateways, real-time availability engine, admin dashboard, and automated email/SMS notifications.
- Conducted on-site POS machine installation and configuration at NSCD Delhi, enabling physical counter sales synced with the web portal.

Additional Projects

E-Attendance Management System | Laravel | e-attendance.smaraksamiti.org | Full Stack Dev

- Automated attendance tracking for institutions; improved reporting efficiency by 40%.

CIFE Cash Portal | Laravel | cife.edu.in | Full Stack Dev

- Developed secure online training payment and record system for Govt. of India.

Loss & Damage Observatory | CodeIgniter | lossanddamageobservatory.org | Full Stack Dev

- Built data tracking and reporting platform for climate loss and damage research organisations.

Goashipyard (Defense Site) | Laravel | goashipyard.in | Full Stack Dev

- Developed official web presence for a Government of India defense shipyard with content management and secure admin portal.

India Plastics Pact | CodeIgniter | indiaplasticspact.org | Full Stack Dev

- Streamlined partner onboarding and content management system for a national NGO plastic sustainability initiative.

UP Forest Complaint System | Laravel | upforestcomplaint.com | Full Stack Dev

- Built grievance redressal portal for the Uttar Pradesh Forest Department enabling citizens to file and track complaints online.

Vrise (E-commerce + MLM) | CodeIgniter | vrise.online | Full Stack Dev

- Developed complete backend logic for multi-tier marketing platform including commission engine, wallet system, and e-commerce checkout.

India 100 | Laravel | india100.evalue8.info | Full Stack Dev

- Developed evaluation and performance tracking platform for India's top 100 initiative.

DAV-Global | CodeIgniter | davglobal.in | Full Stack Dev

- Built global portal for DAV educational network with multilingual content, branch management, and alumni modules.

Lucknow Public School ERP | CodeIgniter | lucknowpublicschoolsandcolleges.com | Full Stack Dev

- Comprehensive institution management ERP with parent/student portals, fee management, timetable, and attendance modules.

School Mobile App | CodeIgniter (API) + Android | Play Store | Backend Dev

- Built RESTful API backend integrated with Android application for student management, notifications, and academic tracking.

Troology Website | CodeIgniter | troology.com | Full Stack Dev

- Designed and developed corporate website for Troology Pvt. Ltd. with service showcasing and client inquiry system.

Saarte Insurance | Laravel | saarte.in | Full Stack Dev

- Built insurance aggregator platform with policy comparison, agent management, and online premium payment integration.

TECHNICAL SKILLS

Languages	PHP, JavaScript (ES7+), SQL
Frameworks	Laravel, CodeIgniter, React.js
Frontend	HTML5, CSS3, Bootstrap 5, jQuery
Databases	MySQL (schema design, query optimization, indexing)
Cloud & DevOps	AWS (EC2, S3), Git, GitHub, XAMPP, GoDaddy
Integrations	RESTful APIs, Payment Gateways (Razorpay/PayU/NTT), POS Systems, SMS/Email APIs
Methodologies	Agile/Scrum, MVC Architecture, OOP, RESTful Design
Tools	VS Code, Postman

EDUCATION

B.Tech – Computer Science & Engineering
Dr. A.P.J. Abdul Kalam Technical University (AKTU), Uttar Pradesh

Diploma – Computer Science & Engineering
Board of Technical Education, Uttar Pradesh (BTEUP), Lucknow

CERTIFICATIONS

- PHP & Laravel Summer Training – Softpro India (2021)
- Git & Version Control Mastery – Self-Directed Study (2023)
- React.js Fundamentals – Online Certification (2024)

CORE STRENGTHS

Problem-Solving & Debugging • Rapid Technology Adoption • On-site Client Deployment • POS & Hardware Integration • Cross-functional Collaboration • Delivery Under Pressure
