WORK EXPERIENCE

Inocentum Technologies. **Backend Intern**- Jul 2023 – Nov 2023

- Developed backend modules and REST APIs using Django for data-driven web applications.
- Worked on API integration, backend service structuring, and database-driven application workflows.
- Improved backend maintainability through modular architecture and optimized query handling.
- Worked with CI-integrated backend development workflows and REST API integration.

PROJECTS

The Cultural Feed — Jewellery E-commerce Platform | Nov 2025 – Present
Tech Stack: Django, Django REST Framework, React.js, PostgreSQL, Redis, ElasticSearch, Git

- Engineered scalable backend services for cart management, order processing, payments, and inventory workflows using Django REST Framework.
- Designed normalized relational database schemas with optimized indexing strategies for efficient query performance.
- Designed backend workflows capable of handling concurrent order and inventory operations efficiently.
- Improved backend responsiveness through Redis-based caching and query optimization techniques.
- Integrated ElasticSearch for high-performance product search and filtering capabilities.

JelowSoft – Jewellery Billing & Inventory System |2026 - Present | Live
Tech Stack: Django, DRF, SQLite/PostgreSQL, React, Electron Js

- Developed an offline-first billing and inventory management system for jewellery shops using scalable backend architecture.
- Built customizable invoicing, secure transaction workflows, and real-time inventory tracking features.
- Optimized application performance and reliability for low-resource operational environments.

Open Source Contributions

- **Contributed to speedtest-cli, an open-source Python-based internet speed testing utility.**

SKILLS

Languages: Python, Java, C++, JavaScript, SQL

Backend & Databases: Django, DRF, PostgreSQL, MongoDB, Redis

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Tools & Platforms: Git, Docker, Linux, Supabase

AI/ML: NLP, Machine Learning, LLM Applications, OpenCV

Solved 200+ algorithmic problems on LeetCode focusing on arrays, graphs, hashing, recursion, dynamic programming, and optimization techniques.

Certifications & Training:

AI & Machine Learning Certification from Central Tool Room and Training Centre (CTTC), Bhubaneswar

- Trained in Machine Learning, Deep Learning, NLP, and Generative AI concepts.
- Worked on applied AI projects involving LLMs, embeddings, and computer vision systems.
- Explored vector-based data handling and AI integration with backend applications.

EDUCATION

Dr. B. C. Roy Engineering College, Durgapur
Master's in Computer Application (Pursuing)
Expected: 2027

Michael Madhusudan Memorial College, Durgapur
Bachelor's in Computer Application in 2023 Major in Computer Science; Cumulative GPA: 8.1/10.0;
Relevant Coursework: Software Engineering; Operating Systems; Data Structure & Algorithms;

Raniganj High School, Raniganj, West Bengal
Study Higher-Secondary Education in Commerce 2018 to 2020; Marks: 92%
