WORK EXPERIENCE

Laravel Developer **March 2025 - Present**
Groscope Technology Pvt. Ltd.

- Integrated **Pay-in** and **Payout APIs** for secure and seamless payment processing, enabling efficient fund collection and disbursement.
- Developed and managed **RESTful API** integrations with third-party payment gateways and financial services.
- Worked on **BBPS** (Bharat Bill Payment System) integration for mobile recharge and bill payment services.
- Implemented transaction validation, error handling, and logging mechanisms to ensure reliable payment workflows.
- Handled **webhooks** and callback responses for real-time transaction status updates and system synchronization.
- Ensured secure data transmission using authentication and encryption techniques.
- Collaborated with cross-functional teams to deliver smooth end-to-end payment solutions.

PHP Developer **Dec 2024 - Feb 2025**
VarInfoTech

- Developed an e-commerce web application using **PHP** with product listing, cart, and order management features.
- Implemented user authentication, search, and category-based product filtering.
- Managed **MySQL** database for products, users, and order processing.

Associate Jr. Developer(Intern) **June 2024 - Nov 2024**

DigiCoders Technologies Pvt. Ltd.

- Learned **PHP** development and built basic web applications, gaining backend fundamentals.
- Worked on projects and performed database integration using **MySQL**.
- Assisted in feature development, debugging, and understanding real-world workflows.

PROJECTS

BBPS Portal | https://login.connectpe.in/

- Integrated **Mobikwik recharge API** for mobile and bill payment services.
- Implemented transaction validation, error handling, and real-time status tracking.
- Handled **webhooks** and ensured secure API communication for reliable payment processing.

Fintech Project Payin, Payout | https://rafifintech.in/login

- Integrated multiple **Payin** and **Payout APIs** for fund collection and disbursement.
- Developed **auto-settlement** functionality for processing payouts after successful transactions.
- Implemented error handling, retry logic, and transaction monitoring with **webhook** management.

Real Estate Web Application | https://lucknowhousing.com/

- Built a **Laravel**-based platform for property listing, search, and management.
- Implemented filtering (buy/rent/premium) and dynamic property display with pagination.
- Developed user roles and authentication for buyers, sellers, and admin with optimized database handling.

ConnectPe - Fintech Solution | connectpe.in

- Developed a static fintech website to showcase digital payment solutions and overall transaction flow.
- Designed and structured UI to present **Payin/Payout** processes and platform features clearly to users.
