PROFESSIONAL SUMMARY

Business and Data Analyst skilled in Python, SQL, Excel, and Power BI with hands-on experience analyzing 4,000+ business and consumer data records across analytics projects and operational reporting. Built interactive dashboards, MIS reports, and KPI tracking systems to identify trends, improve data quality, and support data-driven decision-making. Experienced in data cleaning, EDA, business reporting, and visualization with strong interest in Business Intelligence, Gen-AI tools, and analytics-driven problem solving**,**
Familiar with SDLC, Agile concepts, MIS reporting, and stakeholder communication, with a growing interest in risk analytics and business process optimization.

WORK EXPERIENCE

Business Operations Analyst (Self- Employed) | *Al Sahira Travels* | Jaunpur, UP | Aug 2023 – July 2025

- Performed routine data collection, validation, and data accuracy maintenance across customer workflows and booking records using Excel and Google Sheets.
- Generated standard reports and dashboards tracking KPIs, revenue trends, and booking conversions; delivered actionable insights to support business decision-making.
- Coordinated with customers and operational stakeholders to ensure accurate documentation and process visibility.
- Performed data validation, reporting analysis, and workflow tracking to improve operational accuracy and reporting consistency.
- Documented processes and monitored workflows to identify bottlenecks; maintained data accuracy and process documentation across visa and booking operations.
- Supported business decision-making through dashboard reporting, trend analysis, and operational performance monitoring with a keen interest in risk analytics and general analytics functions, delivering actionable insights that support strategic and operational decision-making.

TECHNICAL & ANALYTICS SKILLS

Business Analytics Concept : SDLC | Agile Methodology

Advanced Excel: Pivot Tables , VLOOKUP , XLOOKUP , IF , COUNTIF , Conditional Formatting , Data Validation , Charts , MIS Reporting

Programming & Query Languages: Python (Pandas, NumPy) | SQL (Joins, Subqueries, Aggregations)
Data Visualization & BI: Power BI (Data Modeling, DAX, Interactive Dashboards)
Soft Skills: Problem Solving | Data-Driven Decision Making | Attention to Detail | Business Acumen | Communication | Working Under Pressure
Additional Skills: Prompt Engineering Basics | Generative AI | Data Visualization

PROJECTS

PwC Case Study – Data Analytics Virtual Experience | (Project Link) 2026

- Analyzed 2,500+ business records to identify operational inefficiencies, customer trends, and performance gaps.
- Developed interactive Power BI dashboards to visualize KPIs, revenue trends, customer segmentation, and operational metrics.
- Performed data cleaning, transformation, and exploratory analysis to improve reporting quality and extract actionable insights.

- Delivered business recommendations based on trend analysis and performance metrics to support strategic decision-making.
- Tools Used: Python, Pandas, NumPy, Power BI, Excel

Consumer Spending Analysis | (Project Link) 2026

- Analyzed 1,000+ transaction records to uncover spending behavior and category-wise trends
- Identified seasonal spikes and top spending categories contributing to majority of transactions
- Built dashboards highlighting customer segments and monthly spending patterns
- Tools & Skills: Python, Pandas, Power BI, EDA, Customer Segmentation

Identity Data Analysis – UIDAI Hackathon | (Project Link) Jan 2026

- Analyzed large-scale enrollment dataset to identify regional inconsistencies and demographic trends
- Detected anomalies in enrollment distribution across states
- Presented insights in a team-based hackathon environment
- Tools & Skills: Python, Pandas, NumPy, Excel, EDA, Data Cleaning

AREAS OF INTEREST

- Business Intelligence & Reporting
- Data Analytics & Data Quality Management
- Gen-AI Tools & Prompt Engineering
- Dashboard Development & Visualization
- Business Insights & Decision Support

EDUCATION

Bachelor of Commerce (B.Com) | ***Veer Bahadur Singh Purvanchal University*** | ***Jaunpur, UP 2026***

(Major in Finance & Minor in Economics & Statistics)

CERTIFICATIONS & COURSES

Data Analytics Program (with Gen AI) | ***PW Skills in collaboration with PwC*** | ***April 2026*** Verify Certificate

SQL, Python, Excel, Power BI | Data cleaning, analysis, dashboards, and AI-integrated analytics

Data Analysis with Python (DA0101EN) | ***IBM Cognitive Class*** | ***Apr 2026***

Learned Python (Pandas, NumPy) for data cleaning, EDA, and visualization.

Credential ID: 5899090168684885af2cd20d53275f20 | Verify Certificate

Travel Agency Operations | ***Dubai College of Tourism*** | ***2025***

Covers booking workflows, pricing, documentation, and operational reporting

Credential ID: L0UDYJMQUBYJ | Verify Certificate

Digital Marketing Fundamentals | ***Google*** | ***2020***

Marketing analytics, campaign tracking, and performance measurement

Credential ID: 1qsdpcedm9s | Verify Certificate
