PROFESSIONAL SUMMARY

Results-driven Web Developer with 3.5+ years of experience in developing, and maintaining web applications using Laravel, WordPress, and REST APIs. Skilled in both frontend and backend development with expertise in HTML, CSS, jQuery, Ajax, and API Integration. Adept at delivering high-quality solutions for government and private projects with a focus on scalability, performance, and user experience.

WORK EXPERIENCE

Sr. Software Developer | Nadcab Labs Technology Pvt Ltd

📅 *Dec 2025 – May 2026*

- Led backend development using Laravel for multiple client projects, ensuring performance and scalability.
- Designed and implemented RESTful APIs consumed by web and mobile applications.
- Collaborated with frontend and mobile teams to deliver end-to-end product features.
- Conducted code reviews and maintained best practices for secure, maintainable code.
- Managed project timelines, client communication, and technical documentation.

Software Developer | Jamtech Technology Pvt Ltd

📅 *Sep 2022 – Dec 2025*

- Developed and maintained web applications using Laravel, PHP, WordPress, and WooCommerce.
- Implemented role-based access control and authentication systems for government and enterprise portals.
- Integrated third-party APIs including payment gateways, notification services, and AI platforms.
- Built and optimized MySQL database schemas for complex multi-role applications.
- Worked on React Native mobile app backend (Verified App) with face recognition and push notifications.

TECHNICAL SKILLS

HTML5	**CSS3**	**Bootstrap**
jQuery	**Ajax**	**API Integration**
Laravel	**PHP**	**WordPress**
WooCommerce	**MySQL**	

EDUCATION

B.Tech – CSE	AKTU (Dr. A.P.J. Abdul Kalam Technical University)	**2026**
Diploma – CSE	BTEUP (Board of Technical Education, Uttar Pradesh)	**2021**

KEY PROJECTS

▸ Maitri UPLDB – Government Portal (Laravel)

🔗 https://maitriupldb.in/

- Developed a government portal for UP Land Development Board to manage users, roles, and workflows.
- Implemented 6 role-based login systems: Super Admin, Director, District Officer, Zone, District, Division.
- Ensured secure authentication, session management, and audit trails across all roles.

▸ Verified App – Face Recognition Dating App (Laravel + React Native)

🔗 https://play.google.com/store/apps/details?id=com.verafied

- Built the backend for a face recognition-based dating app available on Google Play Store.
- Implemented secure user data storage, image-based profile search, and real-time push notifications.
- Designed API endpoints consumed by the React Native mobile frontend.

▸ Zakon AI – AI Query Platform (Third-Party API Integration)

🔗 https://zakon.ai/

- Integrated a third-party AI API to enable users to submit queries and receive automated responses.
- Implemented a freemium model: 5 free queries for new users, then subscription-based access.
- Handled payment gateway integration and subscription management.

▸ MassageMyBody – E-Commerce Platform (WordPress + WooCommerce)

🔗 https://dev.massagemybody.com.au/

- Developed and customized a WooCommerce-based service booking and e-commerce website.
- Implemented custom themes, plugins, and payment integrations for the Australian market.
