MITHIL PRABHAKAR SAWANT

Mumbai, Maharashtra, India • +91 98333 01203 • 1sawant.mithil@gmail.com • linkedin.com/in/mithil-sawant-069b6131

PROFESSIONAL SUMMARY

Results-driven Project Manager with 12+ years of IT experience, including 6+ years managing complex projects in Fintech, Banking, and Digital Lending domains. Proven track record delivering Loan Management Systems (LMS), Loan Origination Systems (LOS), UPI Payment Gateways, NACH Mandate platforms, and ETL/Data Warehouse solutions. Expertise in Agile/Scrum methodologies, stakeholder management, cross-functional team leadership, SDLC, and NPCI regulatory compliance. PMP training completed; exam preparation in progress.

CORE COMPETENCIES

Project Management: Agile | Scrum | Waterfall | Hybrid | SDLC | Sprint Planning | Backlog Grooming | Retrospectives | Kanban

Delivery & Governance: Stakeholder Management | Risk Management | RAID Logs | RACI Matrix | Change Advisory Board (CAB) | RAG Reporting | WBS

Banking & Fintech: LMS | LOS | Collections | UPI | UPI Autopay | NACH | NPCI Guidelines | SFTP | EKYC | CKYC | Core Banking | NEFT | RTGS | IMPS | Penny Drop | Digilocker

Business Analysis: Requirements Gathering | Process Mapping | Gap Analysis | UAT | User Stories | Acceptance Criteria | FSD | Go-Live Readiness

Tools & Platforms: JIRA | Confluence | MS Project | Plane App | ServiceNow | Zoho | GreytHR | JHipster | SonarQube | Jenkins | WinSCP | PuTTY | PgAdmin

Data & Cloud: IBM InfoSphere DataStage | Oracle | PostgreSQL | SQL Server | DB2 | AWS | GCP | Azure | Data Warehouse | ETL | API Integration

PROFESSIONAL EXPERIENCE

Project Manager | Transbnk Solutions Pvt Ltd | Mumbai, India | Mar 2026 – May 2026

Domain: Transaction Banking Platform – UPI, NACH Mandate, Embedded Finance & SaaS for Corporate/Institutional Clients

- Acted as liaison between Business Solutioning Group, Engineering, Delivery, Implementation, and Support teams to align on product goals and streamline delivery.
- Managed end-to-end product development for NACH, UPI, UPI Autopay, and Mandate processing (API journey, Physical, eSign, Presentation & Representation workflows).
- Ensured full compliance with NPCI guidelines including SFTP setup, file nomenclature, file formats, and regulatory rules.
- Drove product grooming and backlog refinement to make the platform client-centric and production-ready.
- Led Agile ceremonies: Daily Scrums, Sprint Planning, Sprint Reviews, Retrospectives, Brainstorming, and Effort Estimation sessions.
- Managed cross-functional teams: Developers, QA Testers, Business Analysts, Support, and Implementation teams.
- Applied Hybrid Agile/Scrum methodology for planning, task organization, and estimation.

Project Manager | Alphaware Next Technologies Pvt Ltd | Mumbai, India | Jan 2024 – Apr 2025

Domain: Digital Lending – Loan Management System (LMS), Loan Origination System (LOS), Collections for NBFCs

- Led end-to-end delivery of a multi-product Digital Lending platform covering Property, Vehicle, Mortgage, Gold, and Personal Loans for NBFC clients.
- Defined customer onboarding workflows including data fields, validation rules, backend verification, security measures, and regulatory compliance requirements.

- Participated in senior leadership and technical discussions to finalize technology stack: web framework, database, cloud infrastructure, APIs, and third-party service integrations.
- Designed workflows, Go/No-Go processes, rule engines, and overall solution architecture.
- Led Oracle 11g to cloud-based PostgreSQL database migration; managed a dedicated team of 8 for DB design, migration, and optimization.
- Managed a cross-functional team of 10; oversaw sprint planning, release cycles, Gantt charts, resource allocation, and risk assessment.
- Created Project Charters, FSD, BRD, and comprehensive project documentation using JIRA, Confluence, and Plane App.
- Coordinated third-party API providers to optimize commercial agreements and ensure seamless system integrations.
- Conducted daily stand-ups, backlog grooming, sprint reviews, and retrospectives for consistent delivery momentum.

Project Lead | Jupiter Analytics Pvt Ltd | Mumbai, India | Oct 2019 – Jan 2024

Domain: Finance, Sales & HRMS – ETL Development, Data Migration, Data Analytics & Business Intelligence

- Led a team of 8 in designing, developing, testing, and implementing ETL and BI solutions using IBM InfoSphere DataStage across Finance, Sales, and HRMS domains.
- Managed end-to-end project lifecycle: strategy, stakeholder alignment, cross-functional collaboration, and implementation across multiple concurrent projects.
- Facilitated Agile ceremonies: daily stand-ups, sprint planning, backlog grooming, sprint reviews, and retrospectives; monitored velocity, burndown charts, and on-time delivery rates.
- Coordinated with globally distributed teams to track progress, identify delivery risks, and drive issue resolution.
- Defined Statements of Work (SOW), Standard Operating Procedures (SOP), and project governance frameworks with stakeholders.
- Performed data migration, data cleansing, reconciliation, and validation using IBM DataStage; maintained data integrity before and after ETL processing.
- Created and managed sprints, release cycles, Gantt charts, resource allocation plans, and project schedules.
- Conducted requirement analysis and collaborated with business stakeholders to gather BRDs and functional specifications.
- Provided troubleshooting, performance optimization, and maintenance support for IBM DataStage ETL jobs and complex SQL queries.
- Delivered live 10-day IBM InfoSphere DataStage hands-on training to batches of 30 employees at Capgemini and Accenture.

Senior ETL Developer | Microlabz Research Services Pvt Ltd | Mumbai, India | Mar 2014 – Sep 2019

Domain: ETL Development & Data Engineering

- Designed, developed, and maintained IBM DataStage ETL jobs (versions 11.3, 11.5, 11.7) using Parallel and Sequence job stages.
- Led development team; assigned tasks, tracked milestones, and ensured on-time delivery.
- Performed data validation, reconciliation, and count verification pre- and post-ETL to ensure data integrity.
- Conducted performance tuning through node optimization, parameterization, and configuration enhancements.
- Managed Unit Testing (UT), coordinated UAT, and documented test results.
- Maintained job inventories, environment listings, data dictionaries (DEV/UAT), and deployment documentation.
- Executed and monitored ETL job scheduling across DEV and UAT environments.

Senior Research Analyst | Datamatics Financial Services Ltd | Mumbai, India | Feb 2012 – Mar 2014

Domain: KPO – Data Research & Verification

- Conducted B2B data research, list building, and contact verification using Factiva, LinkedIn, Hoovers, OneSource, Bloomberg, ZoomInfo, and Reuters.
- Built and maintained accurate business contact databases as per client requirements.

Research Analyst | Chronos Technology Pvt Ltd | Mumbai, India | Jan 2010 – Feb 2012

Domain: Job Portal – C-Level Executive Data Management

- Managed large datasets using MS Excel (Pivot Tables, VLOOKUP) for C-level hiring across global markets.
- Prepared reports, audited data, ensured accuracy, and managed recruiter feedback tracking processes.
