MOHAMMAD SUHAIL

Full Stack Web Developer | Google Apps Script Engineer | Workflow Automation Specialist

+91 7054328427 · mohdsuhail2762@gmail.com · Lucknow, India · LinkedIn - Portfolio

SUMMARY

Full-Stack Web Developer and **Google Apps Script Engineer** with experience building production Web Applications and Google Workspace Add-ons used by **180K+ and 6M+ installs** respectively. Specialized in **React.js, Next.js, Node.js, TypeScript, and Firebase**, with hands-on expertise in end-to-end **Workflow Automation** across Sheets, Docs, Slides, Drive, Gmail, Forms, and Calendar APIs. Delivered scalable automation systems for manufacturing, e-commerce, and hospitality clients, integrating **REST APIs**, **Looker Studio** analytics, and responsive UI design across the full development lifecycle — from architecture and design to deployment and optimization.

EXPERIENCE

Full Stack Developer & Google Apps Script Engineer — Cloudfort Technologies *Full-Time • Aug 2024 – Present*

- Develop and maintain scalable **Full-Stack Web Applications** using **React.js, Next.js, Node.js, TypeScript**, and **Firebase** (Firestore, Authentication, Cloud Functions).
- Contributed to **Smart Certificates** (**180K+ installs**, 177 reviews) — diagnosed and resolved critical sidebar UI bugs, including element overlapping and layout failures across varying screen sizes.
- Resolved a high-impact **Drive API scope migration** — replaced the broad scope with the precise drive.file scope, improving security compliance and granular file-access control.
- Contributed to **AI Assist for Gemini** (**6M+ installs**, 315 reviews) — fixed functional bugs and improved sidebar UI performance and visual consistency across Sheets, Docs, and Forms.
- Built and maintained **Google Workspace automation workflows** integrating **Sheets, Slides, Drive, Gmail, and Forms APIs** to support production-grade add-ons.
- Integrated **REST APIs** and optimized UI/UX performance across web and Workspace platforms, contributing across the full development lifecycle from design through deployment.

Freelance Full-Stack Developer & Google Apps Script Engineer — Fiverr (Part-Time)

- Architected an end-to-end **Production Management & Job Card Automation System** for a manufacturing client, covering production planning, machine allocation, inventory tracking, and dynamic job card generation using **Google Apps Script** and **HtmlService**.
- Built a dynamic web-based Job Card Form that auto-fetches customer info, product specs, and machine data — **eliminating repetitive manual data entry** for production floor staff.
- Implemented automated production calculations and real-time inventory synchronization, **reducing calculation errors to near zero**.
- Developed a full-featured **Property Management System (PMS)** for a hospitality client, automating the reservation lifecycle — availability checking, multi-unit booking, receipt generation, and business analytics.
- Built real-time booking forms preventing **double-bookings** across multiple units, with automated **Google Calendar** integration and **Gmail**-based PDF receipt delivery.
- Integrated **Looker Studio** dashboards delivering real-time visual analytics on occupancy, revenue, and booking performance.

Search Engine Optimization Intern — Logilite Pvt. Ltd. *Jul 2023 – Nov 2023*

- Conducted **keyword research** and competitor analysis to identify high-value ranking opportunities.
- Optimized on-page SEO elements — meta tags, headings, and content structure — improving search visibility.
- Monitored performance using **Google Analytics** and **Search Console**; performed SEO audits and supported backlink-building strategies.
- Assisted in creating SEO-friendly blog and website content, aligning copy with target keywords and search intent to support organic traffic growth.

PROJECTS

Leadclose — Voice-First WhatsApp Marketing & Sales Platform

Next.js · TypeScript · Tailwind CSS · Firebase

- Built scalable, responsive front-end interfaces for a voice-first **WhatsApp marketing** and lead management platform.
- Integrated **Firebase Authentication, Firestore, and Cloud Functions** for real-time data handling and secure user management.
- Developed **CRM modules**, voice automation tools, and analytics dashboards in collaboration with cross-functional teams.

Smart Certificates — Google Workspace Add-on (180,000+ installs · 177 reviews · 4.5★)

Google Apps Script · Slides API · Drive API · Gmail API · Forms API · Sheets API · HtmlService

- Engineered a complete certificate automation pipeline — from Google Forms submission through dynamic PDF/image generation, personalized email delivery, and Sheets tracking.
- Built a custom **mail-merge engine** mapping spreadsheet headers to Slides template placeholders for bulk branded certificate generation at scale.
- Optimized backend using **batch processing** and asynchronous execution to handle high-volume datasets within Google service quota limits.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Responsive Web Design
- **Backend & Databases:** Node.js, Firebase (Firestore, Authentication, Cloud Functions), REST APIs
- **Automation:** Google Apps Script, Workflow Automation, Google Workspace Add-ons, Trigger-based Automation, Batch Processing, API Rate-Limit Handling, Web Apps, Add-Ons, Zapier Integration, Make.com
- **Google APIs:** Sheets, Slides, Docs, Drive, Gmail, Forms, Calendar, HtmlService, Looker Studio
- **Cloud & DevOps:** Docker, CI/CD Pipelines, Google Cloud Platform, Domain & DNS Management
- **Tools & Platforms:** Git & GitHub, VS Code, Postman, Chrome DevTools, Firebase Console

EDUCATION

Bachelor of Computer Applications (BCA) — CGPA: 7.28

Khwaja Moinuddin Chishti Language University, Lucknow · 2021 – 2024
