Professional Summary

Full-Stack Software Engineer with 3+ years of experience building and maintaining web applications using PHP, Laravel, React.js, MySQL, and Redis. Experienced in developing REST APIs, optimizing database queries, implementing asynchronous workflows, and supporting application deployment on AWS. Also experienced with AI/LLM APIs and OCR integrations. Available to join immediately.

Technical Skills

Backend: PHP, Laravel, Python, FastAPI, MVC Architecture, RESTful APIs, API Integration,
Frontend: JavaScript (ES6+), React.js, Inertia.js, Alpine.js, Livewire, Next.js, Tailwind CSS, HTML5, CSS3
Database & Caching: MySQL, PostgreSQL, SQLite, SQL, Query Optimization, Redis, Queues
Cloud & Tools: AWS, Git, GitHub, Linux, Docker
AI & Integrations: OpenAI API, LLM SDKs, OCR Integration, Payment gateway, shipping APIs, ElevenLabs, Livekit

Professional Experience

Jamtech Technologies Pvt. Ltd. Mar. 2023 – May 2026
Software Engineer *Lucknow, India*

- Developed and maintained scalable backend applications and RESTful APIs using Laravel and MySQL.
- Built responsive customer-facing interfaces and administration dashboards using React.js and Tailwind CSS.
- Implemented Redis-based queues, asynchronous workflows, and rate-limiting mechanisms to improve application responsiveness under concurrent traffic.
- Worked across the development lifecycle, including application architecture, backend development, infrastructure setup, AWS deployment, and production releases.
- Collaborated with cross-functional teams to refactor legacy code, improve code quality, and optimize database queries.

SoftPro India Technologies Pvt. Ltd. Sept. 2022 – Mar. 2023
Web Development Trainee *Lucknow, India*

- Gained hands-on experience with the Software Development Lifecycle in a production development environment.
- Developed user authentication modules, database operations, and management dashboards using Core PHP and MySQL.
- Built dynamic UI components and interactive forms using JavaScript (ES6+), HTML5, and CSS3.

Highlighted Projects

AI-Powered Document Intelligence SaaS Platform *Laravel, React.js, OpenAI API, OCR, MySQL*

- Built a document processing platform for automated document scanning, parsing, and conversational querying using OpenAI APIs.
- Developed data-processing workflows to clean, normalize, and prepare unstructured OCR output for querying and retrieval.

Traffic Queue & Rate-Limiting SaaS Engine *Laravel, Redis, High-Traffic API Design*

- Implemented a Redis-backed queue monitoring workflow and token-bucket rate-limiting system to manage high-traffic API requests.
- Moved heavy computational tasks to asynchronous worker pipelines to keep the main application responsive.

Stellnoir – Full-Stack E-Commerce Platform *Laravel, Inertia js,React.js, MySQL, APIs*

- Developed a full-stack e-commerce platform with shopping cart functionality, relational payment tracking, and automated fulfillment workflows.

Amacitia – Device Analytics *PHP, Laravel, Livewire, MySQL, Alpine.js*

- Built the backend architecture and high-throughput API suite for a tracking application that monitors real-time mobile activity, process execution, and usage analytics.

BIMB PICS – AI-Assisted Photo Sharing Platform *Laravel, PostgreSQL, Alpine.js, Filament PHP*

- Developed a photo-sharing platform focused on event galleries and AI-assisted photo organization, featuring QR-based shared albums, full-resolution photo sharing, face recognition for photo sorting/grouping, private guest galleries, and web access without requiring a dedicated app.

Falmedia – Frontum *Laravel, Python, React Js, MySQL, Alpine.js*

- Developed and maintained the Frontum web platform with a focus on dynamic functionality and efficient data management.

MBAGATE – SEO-Optimized Educational Platform *Laravel, MySQL, Schema Markup*

- Developed an educational platform with dynamic JSON-LD schema generation and automated indexing workflows to support search visibility.

RunFitness – Gym Management Website *Laravel, Livewire, Filament PHP, Alpine.js, SQL*

- Built a fully dynamic gym management website with a CMS, member management system, and attendance tracking module using Laravel, Livewire, and Filament PHP.

Voice Agent – SaaS Communication Appointment Platform *Laravel, FastAPI, ElevenLabs, LiveKit, Twilio SIP*

- Developed a SaaS platform that enables organizations and companies to register, manage voice agents, and automate customer communication and appointment workflows.
- Built a Laravel-based dashboard and high-performance FastAPI services integrating ElevenLabs, LiveKit, and Twilio SIP for real-time AI voice calling and communication.
- Implemented customer call scheduling, appointment booking, payment processing, automated alerts, and user management workflows.

Education

S R Institute of Management and Technology (AKTU) 2021 – 2024
Bachelor of Technology (B.Tech), Computer Science and Engineering *Lucknow, India*

Govt. Polytechnic Mohammadi Kheri (BTEUP) 2018 – 2021
Diploma, Computer Science and Engineering *Kheri, India*
