PROFESSIONAL INTRODUCTION

AI/ML Developer and B.Tech CSE student with hands-on experience building LLM-powered applications, AI automation workflows, and full-stack solutions using Python, OpenAI/Anthropic APIs, and REST APIs. Currently working as an AI Engineer Intern, developing AI-driven recruitment and automation solutions.

EDUCATION

Indore Institute of Science and Technology, Indore Aug 2023 – May 2027 (Expected)
B.Tech — Computer Science Engineering | CGPA: 8.23

EXPERIENCE

Sybeez – AI Engineer Intern Sep 2026 – Sep 2026

- Working on AI-powered automation and workflow solutions as an AI Engineer Intern.
- Contributing to the development and integration of AI features within the Sybeez platform.
- Implementing and testing AI workflows based on project requirements and team objectives.

AshokSoft Technologies – AI Engineer Intern Jun 2026 – Aug 2026

- Developing C2C AI modules for candidate-job matching, skill assessment, ATS scoring, and recruitment automation.
- Built an AI-proctored hiring flow with round selection, AI verification.
- Built reusable platform components using React and TypeScript while collaborating through Git and REST APIs.

TECHNICAL SKILLS

Generative AI: OpenAI API, Anthropic API, Prompt Engineering, LLM Applications
Machine Learning: Scikit-learn, Classification, Regression, Feature Engineering, EDA
Languages: Python, SQL, MySQL, JavaScript, HTML, CSS
Development: REST APIs, Git, GitHub, Agile

PROJECTS

reglens-ai — LLM-Powered Regulatory Compliance Assistant Apr 2026 - June 2026
Python · OpenAI API · Anthropic API · Prompt Engineering

- Built LLM-powered compliance assistant for FinTechs using OpenAI and Anthropic APIs with multi-step prompt pipelines
- Designed few-shot and chain-of-thought workflows for structured, reliable AI output
- Implemented modular prompt orchestration layer enabling rapid iteration across regulatory domains

Verbalystic — Full-Stack AI Application (Live) Dec 2025 – Feb 2026
Python · AI Speech API · REST APIs · Git · Vercel

- Designed and shipped a production AI web app analysing speech for fluency, pronunciation, and confidence in real-time.
- Python backend handles AI inference and REST API routing to React frontend
- Applied complete SDLC from system design to deployment; managed CI/CD pipeline and version control throughout

ACHIEVEMENTS

ET AI Hackathon 2026 — Semi-Finalist
Research Paper, IGNITEX-2025 National Conference (IIST Indore)

CERTIFICATIONS

- IBM — Python for Data Science, AI & Development (Coursera) | Apr 2026
- AWS Academy — Cloud Foundations | 2026
- Cisco — Python Essentials 2 (40 hrs) | Apr 2026
