PROFESSIONAL SUMMARY

Motivated and tech-savvy fresher seeking a Business Development Executive/Associate role to drive lead generation, client acquisition, and revenue growth. Strong communication, research, and negotiation skills, with experience in CRM tools, MS Excel, and pipeline reporting. Quick learner, eager to contribute to sales targets in a fast-paced team.

SKILLS

- **Business Development:** Lead Generation, Prospecting, Client Acquisition, Pipeline Management
- **Sales & Communication:** Cold Calling, Email Outreach, Negotiation, Presentation
- **Tools & CRM:** CRM Tool, MS Excel, LinkedIn Sales Navigator, Google Workspace
- **Other:** Market Research, Reporting, Relationship Management

EXPERIENCE

Software Development Intern Jul 2025
Shri Ramswaroop Digital Technologies Pvt. Ltd. *Lucknow, India*

- Worked with Python, SQL, APIs, and Git while contributing to practical application development in a professional team setting.
- Applied problem-solving and debugging skills to understand application workflows and suggest improvements.
- Gained exposure to how technology products are built and delivered, which helps me explain technical solutions clearly to clients.
- Followed up the internship by independently building and deploying 3+ projects.

PROJECTS

TaxBuddy AI – AI-Powered Income Tax Assistance Portal 2025

- Built and deployed a web portal that helps Indian taxpayers understand and plan their taxes with six tools: Tax Calculator, Income Tax, Regime Comparison, HRA Calculator, Deductions Finder, and ITR Finder.
- Added an "Ask TaxBuddy AI" chatbot that answers tax queries using a curated Indian tax knowledge base, making a complex topic easy to understand for non-expert users.
- **Tools Used:** React, FastAPI, Python, LangChain, Gemini API, Vercel. Live Demo

ExpenseAI – AI-Powered Expense Tracker (SaaS) 2026

- Built and deployed a full-stack SaaS product that helps users track and manage their personal expenses, with AI features powered by the Gemini API.
- Handled the product end to end, from idea and user-facing design to deployment, which gave me hands-on experience of how a product reaches real users.
- **Tools Used:** React, Node.js, Express, MongoDB, Gemini API. Live Demo

EDUCATION

B.Tech in Computer Science and Engineering (AI & ML) 2022 – 2026
