PROFESSIONAL SUMMARY

Google-certified Project Management professional with freelance experience coordinating cross-functional EdTech/VR teams, tracking deliverables, supporting requirements discussions, and improving handoffs. Skilled in project documentation, Agile planning, Jira, Trello, and Excel. Seeking an entry-level Project Coordinator or Associate Project Manager role.

CORE SKILLS

Project Coordination & Delivery: Project Planning & Scheduling, Scope & Requirement Definition, Deliverable & Timeline Tracking, Action Item & Meeting Minutes Tracking, Budget & Resource Tracking, Risk Management, SDLC, Workflow Management

Methodologies: Agile & Waterfall, Sprint Planning

Stakeholder & Communication: Stakeholder Communication, Cross-Functional Team Coordination, Meeting Facilitation & Follow-Up, Process Improvement

Tools & Technologies: Jira, Trello, Confluence, Microsoft Excel, Google Sheets, Google Docs, Figma, Power BI (certification in progress)

Professional Skills: Written Communication & Presentation, Organizational Skill, Problem Solving, Attention to Detail

PROFESSIONAL EXPERIENCE

Constituent AI | Content Writer & Ideation Team Lead (Freelance) **Jan 2024 – Nov 2024**

- Coordinated content delivery with a 10–12-member cross-functional team of UI/UX designers, VR developers and project managers for school-level VR learning modules.
- Tracked deliverables in Trello and worked with designers in Figma to prepare developer-ready instructional content and reduce revision cycles.
- Supported requirements discussions and status meetings; documented follow-ups and aligned content with curriculum and stakeholder expectations.
- Suggested improvements to content-to-development handoffs, contributing to an estimated 15% increase in team productivity.

PROJECTS

EduTrack — Student Productivity Website | Self-directed PM Simulation **2026 – Present**

- Defined a four-week MVP scope covering authentication, study-task management, progress dashboards and responsive web design; prepared a project charter, BRD and FRD.
- Created a stakeholder register and a WBS with planned activities, roles and timelines; used Jira to organize a simulated Agile backlog and sprint plans.
- Expanding the simulation with schedule tracking, risk/issue logs, status reporting and change control; artifacts are planning exercises, not a deployed product.

Sauce & Spoon — Menu Tablet Rollout | Google PM Certificate Capstone **Aug 2026**

- Prepared a project charter, SMART goals, scope and budget considerations for a two-location tablet-ordering pilot case study.
- Reviewed provided stakeholder interviews, survey data and meeting notes; documented project risks, progress and closeout findings using the capstone scenario.

EDUCATION

B.Tech, Electronics & Communication Engineering | Medi-Caps University, Indore | CGPA 8.01/10 | 2023
